EMPOWERING WOMEN ENTREPRENEURS WORLDWIDE

gallery@oxo, Oxo Tower Wharf, Bargehouse Street, South Bank, London, SE1 9PH
 Dates: 28 February 2018 - 11 March 2018
 Opening Times: 11.00am - 6.00pm
 Admission: Free

Empowering Women Entrepreneurs Worldwide is a photography exhibition and campaign that highlights the work of Lendwithcare.org, an initiative of leading aid and development charity CARE International UK. Lendwithcare empowers entrepreneurs to work their way out of poverty with dignity through the provision of micro lending and business skills training in ten countries. It also allows people in the UK to connect with an entrepreneur in a developing country who needs a loan to support their small business. The photo essays on display, commissioned and curated by FotoDocument, feature inspiring women from five of the countries where Lendwithcare operates and illustrate how entrepreneurship can lift people out of poverty, providing lasting social and economic change.

This exhibition is part of CARE's wider #March4Women campaign which is a month of action for gender equality, including their annual March in London on Sunday 4 March.
